PowerCenter PRO 2500

Rackmounted 10-outlet Power-protection Center

You can think of the **PowerCenter PRO 2500** as two essential products in one! The PowerCenter PRO 2500 uses Monster's patented Clean Power filter circuitry to filter electromagnetic and RF interference. Its Dual Mode Plus surge protection keeps nasty power spikes and surges from getting to your valuable gear.

PRO2500 PowerCenter PRO 2500, 10-outlet..... ONLY $10/mo. **$199.95**

Eight switched (and color-coded) outlets are included on the back panel. You also get two convenient outlets and a 3-pin XLR lamp-connection point on the front panel.

PowerCenter PRO 950

Affordable Power Protection and Filtering

Any musician at Sweetwater will tell you that if you spend enough time in studios or on stages, you're bound to run into power issues sometime. The Monster Power **PowerCenter PRO 950** gives you smart protection against electrical surges while also using Clean Power Stage 1 filtering to eliminate noisy interference with your audio gear. With 10 outlets (eight on the rear panel and two on the front panel) in a single rack space, there's no reason not to protect your studio equipment or live sound gear with the Monster Power PowerCenter PRO 950.

PRO950 PowerCenter PRO 950, 10-outlet ... List ~~$119.95~~ **$99.95**

SX1115

The Pro Way to Fight Surges and Clean Up Power

If you're serious about great sound, then this outstanding surge suppressor and power conditioner box belongs in your rack! SurgeX's **SX1115** gives you the premium power conditioning you want, with the surge suppression you need. This amazing box includes six switchable outlets plus two "always on" outlets on its rear panel, for maximum flexibility. There's also an "always on" courtesy outlet on the front panel. The SX1115 can handle a 15-amp load, so you know it's built for the job. Its comprehensive EMI/RFI filtering keeps hums and buzzes at bay. Constructed from industrial-grade components, the SX1115 makes an essential addition to your live or studio rack!

SX1115 SX1115, 8-outlet..... ONLY $21/mo. **$559.00**

PowerCenter PRO 200

Power Protection and Filtering That Fits in Your Gig Bag

Protect your amp *and* your entire pedalboard from power surges and pesky noise! Monster Power's compact **PowerCenter PRO 200** gives you the same Dual Mode Plus surge protection/alarm and Clean Power Stage filtering you'll find in their high-end rackmountable units. But this 2-outlet unit easily fits in your gig bag.

The PowerCenter PRO 200 also includes LED indicators that let you know when the SurgeGuard protection is activated — and when external AC wiring is grounded properly. It's peace of mind that goes wherever you need it.

PRO200 PowerCenter PRO 200, 2-outlet ... List ~~$49.95~~ **$39.95**

EBTECH Hum X

Exterminate Unbearable Ground Loops

Exterminate hum with the **Hum X**! This handy tool filters out unwanted voltage and current in the ground line, which can cause ground-loop hum, while maintaining a solid, safe ground. You'll no longer have to run your audio signal through any type of filtering or ground lift, which can result in loss of volume or tone, or both.

HumX Hum X.....List ~~$150.00~~ **$75.00**

FURMAN

F1500-UPS

Add Peace of Mind to Your Studio Setup

With Furman's **F1500-UPS** in your studio, you've got rock-solid surge and spike protection plus Linear Filtering Technology for clean, clear power. And in the event of a power outage, the 1500VA battery backup gives you the time you need to save your projects, then shut down the system gracefully. An extra battery is also available, as is the 1000VA version, the **F1000-UPS**.

		ONLY $49/mo.

P-1800 AR

Knock Out Potential Power Issues and Purify Your Power

Not only is the **P-1800 AR** a high-quality voltage regulator, but it's also a full-featured power conditioner, packed with Furman's best-of-the-best filtering and purifying protection technologies. The P-1800 AR brings you a stable 120 volts of AC power — accepting a wide range of AC voltages. On the power-conditioning side, you'll have the proven Furman Linear Filtering Technology, Series Multi-Stage Protection, and Extreme Voltage Shutdown safeguarding your gear.

		ONLY $34/mo.
P1800AR	P-1800 AR, 9-outlet.....List ~~$1180.00~~	$899.95

M-8X AR

NEW!

Gear Protection for the Real World

Furman's **M-8X AR** 15-amp voltage regulator protects your gear from the sags, brownouts, and surges, that can cause your gear to malfunction or even sustain damage. It provides reliable 120-volt AC output, ±5 volts. Built with audio and video gear in mind, the M-8X AR's toroidal autoformer ensures minimal leakage of stray magnetic fields. For further protection, the M-8X AR also features power conditioning as well as a circuitry that shuts down outputs when it detects dangerous levels.

		ONLY $21/mo.
M8XAR	AR-1215, 9-outlet .....List ~~$599.00~~	$549.95

PL-PRO DMC

20 Amps of Protection plus a Handy USB Port

Furman's **PL-PRO DMC** sits on top of their PL series power-conditioning line. You get 20 amps of Furman's proven power conditioning across eight outlets, as well as a handy front-panel USB charging jack! The PL-PRO DMC sports LED rack lights with a dimmer control and a voltage-meter display. Furman packed their SMP Series Multi-Stage Protection technology, Extreme Voltage Shutdown technology, and Linear Filtering Technology (LiFT) into this single-rackspace device.

		ONLY $17/mo.
PLPRODMC	PL-PRO DMC, 9-outlet.....List ~~$550.00~~	$439.95

PL-8C

Premium Power Protection and Conditioning

Clean and filter your AC power — and protect your investments! The **PL-8C**'s SMP and Extreme Voltage Shutdown sense accidental connections to 208- or 240-volt lines and shut down before damage occurs. There are eight rear-panel outlets and one on the front panel. The **PL-PLUS C** adds a front-panel voltage-meter display. The **PL-PLUS DMC** adds a numeric voltage display.

		ONLY $10/mo.
PL8C	PL-8C, 9-outlet.....List ~~$240.00~~	$189.95

Radial JX62

The Radial **JX62** is a rackmount 6-input guitar switcher with two built-in DI boxes for acoustics and bass, along with an amp switcher. The JX62 is packed with sophisticated features aimed at touring pros, including inputs with recessed trims, drag controls for optimal guitar pickup load, a tuner output, and transparent Class A topology.

The Radial JX62 gives you six guitar input channels, each with a 1/4" input and a thru connection to feed its own amp or dedicated direct box. A simple on switch activates the channel, and a recessed set-and-forget trim control lets you or your guitar tech set all the levels uniformly should output need adjustment. All channels can be used at once. The trims on inputs 1 and 2 double as drag controls to adjust the load when using a wired connection to a magnetic pickup. The JX62 features the same circuit topology found in the Radial JD7, used by guitar greats Carlos Santana, Neal Schon, Steve Vai, and John Petrucci. Built tough from 14-gauge steel and finished in baked enamel, the Radial JX62 is ready for your next tour!

ONLY $34/mo.

JX62 JX62 ..... List ~~$1000.00~~ **$899.99**

Radial Re-amping Pack

The **Re-amping Pack** gives you everything you need to record dry guitar tracks — and then later run them through your guitar amp of choice. You get Radial's **J48** and **X-Amp** plus a lightweight Zebracase. The J48 is a pro-grade DI that delivers the pure and natural sound of your instrument to the board. Radial's design delivers high headroom without compromising sound quality, letting you record the perfect foundation for re-amping. The X-Amp allows you to run your track through one or two guitar amplifiers or effects pedals, simultaneously. Its Class A circuit redesign has been optimized for guitar. With Radial's Re-amping Pack, you'll be able to record outstanding guitar takes and then run them through whatever amp or effects you like. Both the J48 and the X-Amp are available individually.

ONLY $15/mo.

ReampKit Re-amping Pack ..... List ~~$440.00~~ **$379.99**
J48 J48 ..... List ~~$220.00~~ **$199.99**
XAmp X-Amp ..... List ~~$220.00~~ **$199.99**

Radial SGI Studio Guitar Interface

The **SGI Studio Guitar Interface** uses transmitter and receiver modules to allow you to run your guitar's signal over a standard XLR cable, up to 328 feet without buzzes or hum.

ONLY $10/mo.

SGI SGI Studio Guitar Interface ..... List ~~$300.00~~ **$259.99**

Radial EXTC-SA

Radial's **EXTC-SA** effects re-amper lets you put any signal through your guitar pedals. Add tremolo to vocals or flanger to a trumpet; the possibilities are endless! Take any line-level source and put it through your guitar effects pedalboard to conjure up new sounds and vibe.

ONLY $10/mo.

EXTC-SA EXTC-SA ..... List ~~$300.00~~ **$259.99**

Radial USB-Pro

The best way to connect a laptop to a sound system! The **USB-Pro** connects to your laptop via USB and lets you plug into balanced outputs via XLR cables. If you've ever tried connecting the headphone jack or line out of your computer directly into a sound system, you know that the buzz, hum, and interference can completely ruin the experience. With the USB-Pro, you'll enjoy crisp, clear, 24-bit/96kHz audio quality, plus a balanced output that stays noise-free even over long cable runs. In fact, we think the USB-Pro belongs on every stage and in every public auditorium.

ONLY $10/mo.

USBPro USB-Pro ..... List ~~$260.00~~ **$229.99**

Radial PZ-DI

Optimized for all instruments! The **PZ-DI** is a unique direct box that lets you precisely match the input impedance to your source. A 3-position load switch lets you optimize for orchestral instruments with piezo pickups and acoustic, electric, and bass guitars with magnetic pickups, as well as older low-output instruments.

ONLY $10/mo.

PZDI PZ-DI ..... List ~~$260.00~~ **$229.99**

Radial JDX Reactor

Capture your amp's true sound while allowing a direct feed to a PA or a recorder. Using Class A circuitry, multi-stage filtering, and effective cabinet emulation, Radial's **JDX Reactor** produces a realistic amp sound in a direct feed. When miking your amp isn't a viable option (or you just want to combine a line signal with a miked one), you need this box.

ONLY $10/mo.

JDX JDX Reactor ..... List ~~$220.00~~ **$199.99**

Radial JPC

With the Radial **JPC**, you can get studio-ready balanced audio from your computer's sound card or the outputs of virtually any basic consumer device! Its 1/8", 1/4", and RCA inputs interface with iPods, DVD players, CD players, and more. Audio transformers on both inputs provide effective isolation against hum and noise-causing ground loops. The JPC requires 48-volt power.

ONLY $10/mo.

JPC JPC ..... List ~~$220.00~~ **$199.99**

Radial ProAV2

If you work in audio/video, you know how important the right tools are. That's why Radial makes the ultra-flexible **ProAV2** passive stereo direct box. This road-tough unit gives you 1/4" inputs for instruments, RCA and 1/8" connections for consumer devices, and a pair of XLR outputs. If you need only a single channel, choose the **ProAV1**.

ONLY $10/mo.

ProAV2 ProAV2 ..... List ~~$280.00~~ **$169.99**
ProAV1 ProAV1 ..... List ~~$140.00~~ **$119.99**

Radial JDI Series

The **JDI** single-channel passive direct box employs Jensen isolation transformers for the best audio performance. This box's input features a 15dB pad, and its output panel sports polarity-reverse switches. You also get handy ground-lift switches on both inputs and outputs. The stereo **JDI Duplex** features Eclipse transformers.

ONLY $10/mo.

JDI JDI ..... List ~~$220.00~~ **$199.99**
JDIDuplex JDI Duplex ..... List ~~$375.00~~ **$349.99**

Radial ProD2

All the connection options you need! The **ProD2** comes equipped with two 1/4" instrument inputs, two 1/4" throughputs, and two XLR outputs, so it's perfect for stereo keyboards, drum machines, etc. The ProD2 also boasts ultra-quiet electronics for the most transparent sound possible. The **ProDI** is a single-channel version of the ProD2.

ONLY $10/mo.

ProD2 ProD2 ..... List ~~$175.00~~ **$149.99**
ProDI ProDI ..... List ~~$115.00~~ **$99.99**

Mr. Rupert Neve has championed sound quality above all else for over 50 years. Now, there's a stand-alone direct interface truly worthy of his name. **Meet the RNDI.**

Rupert Neve Designs

The RNDI utilizes a custom Rupert Neve-designed transformer to elegantly balance an instrument signal - whether straight from a bass guitar or a screaming 1000W amp - with pristine sonics extending to nearly 100kHz, a practically bulletproof steel construction, and the undeniably famous tone heard across 50+ years of classic records.

Call Sweetwater today to learn more about the RNDI - a direct descendent of the most famous gear in the world.

A-Designs quality without compromise

REDDI

The sound of the awesome Ampeg B15 in an easy-to-transport unit! The A Designs **REDDI** tube direct box is a unique high-performance tube-powered DI, producing thick, round, solid-sounding bass that sits perfectly in the mix. The REDDI is also great for guitars, synths, and any other electronic instrument requiring a direct box for recording. And it now includes a throughput jack.

ONLY $28/mo.

REDDI REDDI .....List ~~$825.00~~ **$745.00**

AVALON DESIGN

U5

Avalon's **U5** is a versatile direct box with a difference. "The Avalon U5 is an incredible piece of gear! …you can dial in exactly the type of sound you want. I credit the U5 for providing the huge sound of my NS/Stick on my first CD, and will definitely use it for my next disc as well!" says Gary J. of Detroit. Here's a pro DI/preamp that you can take anywhere. As does any DI, the Avalon **U5** converts instrument signals to microphone-level signals. But Avalon wasn't content with leaving it at that. They added this 100%-discrete pure Class A box also gives you six EQ curves that optimize the sonic performance of the U5 to a range of sources. You'll be astounded at the magic you'll be able to work with the U5 in your studio. Tons of sonic character!

ONLY $24/mo.

U5 Mono Instrument DI Preamp.....List ~~$690.00~~ **$620.00**

COUNTRYMAN

Type 85

Don't compromise quality when you're plugging into the PA or the recording rig. Countryman's **Type 85** direct box connects any high-impedance instrument, even piezo pickups, to a balanced mic input. And it provides a strong, clean signal to the mix board — without adding noise or distortion.

The Type 85 uses only hand-selected, high-quality discrete components woven into a single-ended Class A circuit — much like a classic tube mic preamp! The sound? Smooth and sweet.

ONLY $10/mo.

DT85 Type 85.....List ~~$231.70~~ **$179.00**

SAMSON

S-direct plus

Perfect for keyboards or other instruments with multiple outputs! Samson's **S-direct plus** DI box is built tough enough to handle long-term use — or those trips in the gig bag from your studio to your car to the show. The S-direct plus comes equipped with 1/4" linked inputs, XLR balanced outputs, and a handy switchable ground lift.

COLORband PiX-M

Create Stunning Combinations of Light and Motion

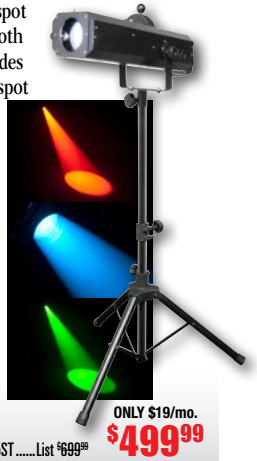
Chauvet's **COLORband PiX-M** takes the COLORband lighting effects fixture series to a whole new level. For starters, this flicker-free fixture comes loaded with 12 3-watt tri-color LEDs, which let you color mix, without creating ugly RGB shadows. In addition to creating wall washes, crowd blinders, or atmospheric fog effects, the motorized COLORband PiX-M is great for setting up moving sweeps or re-aiming on the fly. You should see what you can create with a little fog! On top of that, you can combine your COLORband PiX-M with other COLORband fixtures to create impressive coordinated light shows.

COLORbandPiXM COLORband PiX-M.....List ~~$479.99~~ ONLY $14/mo. **$359.99**

LED Followspot 75

Compact, Easy-to-use 75-watt Followspot

You need the right spotlight for the right job. That's what makes the **LED Followspot 75** perfect for your venue. It's compact enough to remain unobtrusive, but its powerful 7-color LED options and generous zoom range make this Followspot an impressive performer. Smooth LED dimming gives you the fades you want, and the LED Followspot 75's mechanical iris lets you focus the spot tightly, right where you need it. You can easily access the controls manually, or take command via convenient DMX control. This amazingly affordable followspot comes complete with a sturdy, lightweight stand.



FollowSpot75 LED Followspot 75ST.....List ~~$699.99~~ ONLY $19/mo. **$499.99**

4BAR

Complete Lighting Rig, Portable Package

It's like having four lighting fixtures in one! Built into a single standalone fixture, the **4BAR** features four individual wash lights, each loaded with 108 LEDs. The 4BAR is completely DMX controllable and can also run in sound-active mode.

Flat Bungee

Rugged Gear Straps

Don't load up your cart and then trust your gear to those frail bungees you got at the dollar store — secure your valuable equipment with Gruv Gear **Flat Bungee** cords! Carts are great for hauling equipment, but your gear can still fall off if it isn't secured. Flat Bungees are perfect for locking your gear down and eliminating load shifting. Each .75"-wide bungee is 48" long and features super-strong rubber-coated steel hooks. The coating on the hooks will not mar your equipment or handcart. Strap your gear down right, with Gruv Gear Flat Bungees!

FlatBungee Bungee Cord ..... List ~~$29.99~~ **$16.99**

ROCK N ROLLER® MULTI-CART®

R6RT Mini Multi-Cart

Count On This Cart for the Long Haul

Like all Rock N Roller carts, the **R6RT Mini Multi-Cart** is built to last while making your setup and load-out easier. The frame telescopes easily from 28" to 42.5" in length, and the non-skid bed keeps your gear in place. One thing we love about the R6RT's large R-Trac wheels is that they'll never go flat, which is some serious peace of mind when you're hauling 500 lbs. of band equipment.

The flexible 8-in-1 design of the R6RT lets you optimize its configuration for any type of application, so it's going to be a huge help to your whole band. If you value your gear, your time, and your energy, you owe it to yourself to try Rock N Roller's R6RT Mini Multi-Cart!

R6RT Mini Multi-Cart w/RTrac Whl ..... List ~~$284.99~~ ONLY $10/mo. **$139.99**

R12RT All-Terrain Multi-Cart

Equipped for Outdoor Festivals

With an amazing weight capacity and excellent maneuverability over any terrain, the **R12RT All-Terrain Multi-Cart** is one piece of gear you'll never want to gig without. Load up to 500 lbs. of gear onto the skid-resistant frame bed, and the large all-terrain wheels will make sure it all gets to the stage and back safely.

Just like other Rock N Roller carts, the R12RT's 8-in-1 design gives you the flexibility you need to manage any and all of the gear in your rig. The R12RT's frame telescopes easily from 34" to 52" in length.

R12RT All-Terrain Multi-Cart, RTrac ..... List ~~$339.99~~ ONLY $10/mo. **$249.99**

R2RT Micro Multi-Cart

Strong and Lightweight Cart

Got drums, keyboards, PA, or DJ racks to move? Do your fellow band members vanish into the night at load-out time? Here's help on wheels! The compact **R2RT Micro Multi-Cart** is tough enough to gracefully handle 350 lbs. of gear. Yet it only weighs 17 lbs. — amazingly easy to manage!

The R2RT changes shape to meet your gear-hauling needs. Its frame telescopes easily from 26" to 39" in length. Its 8-in-1 flexibility allows you to use the cart as a conventional 2-wheel hand truck or a 4-wheel carriage, all with a few quick adjustments; the best part is that it takes about two seconds to change from 2-wheel to 4-wheel mode! This cart will quickly become an integral piece of gigging equipment.

ARTcessories™

Creative audio solutions in cool little boxes.

Creative audio solutions in cool little boxes.

Offering a full line of affordable processing tools for live sound, stage, and studio, ARTcessories deliver solutions for a number of audio needs: phantom power, one or two extra mixing channels, cable testers, headphone processing, preamplification for mics and turntables, and more!

AMPS & PREAMPS

Auto-Tune Pre

Auto-Tune Pre

The ART **Auto-Tune Pre** makes it easy to add Antares Auto-Tune vocal tuning to your studio or live rig. Powered by ART's award-winning 12AX7 preamp design, the Auto-Tune Pre starts off strong with the warmth and fidelity you need to create excellent vocal tracks. Just select the Key, Scale, and EFX type via a front-panel user interface and start singing. You can also save your favorite settings for instant recall.

ART's **USB Dual Pre** audio interface features two preamps with phantom power for a great low price. The **Tube MP/C** packs a tube preamp and an opto-compressor into a desktop-friendly package that's perfect for all kinds of studio setups. The **DJ PRE II** features an RIAA-type phono preamp circuit with full patching capabilities for connecting a phono turntable to a mixer. The **HeadAmp 4** provides amplification and individual volume control for multiple sets of headphones, and they can be driven by both line-level and headphone amplifier signals. Connect the **MyMONITOR** between the microphone and the line source, and you have your own headphone monitor mixing system.

i Series

Serious Protection for Your Valuable Gear

Why choose a heavy-duty watertight SKB **i Series** case to store and transport your precious gear? We'll give you three words: you never know. But protection from the elements is just part of what i Series cases provide for your gear. These cases are more than tough. They're made from durable injection-molded polypropylene copolymer resin and built to military specifications, shielding your equipment and instruments from impact. They also feature a unique gasket system with an ambient pressure-equalization valve, which seals out even ambient moisture yet maintains a consistent pressure within — a real bonus if you fly with your music gear. Many also feature low-profile rollers, telescoping pull-out handles, and TSA-approved locks. Ask your Sales Engineer about the complete lineup of rugged, reality-proof SKB i Series cases.

These Rugged Rack Cases Are Ready for the Road

Gator's **GR Series** offers rugged portable racks in almost any size. Each case is molded from durable high-density military-grade polyethylene for maximum protection at a light weight. These cases are easy to load into the gig and back out to the car after a long night! Each case has a 19.5" rackable depth, with field-replaceable front- and rear-threaded rack rails. These rack cases are available in sizes ranging from 2U to 12U. Have a load of shallow-depth gear you need to rack up? There's no need for a case with space overkill. Check out Gator's range of 14.5"-depth rack cases in 3U, 4U, 6U, and 2U sizes.

ONLY $10/mo.

GRC Series

Keep Your Mixer and Outboard Gear Gig Ready

Safely transport your mixer and outboard gear from place to place. The **GRC-12x10 PU**'s top is a 12U rack for your mixer. Beneath that are 10 rack spaces for your gear. Locking casters keep your rack right where you put it, and the top features Gator's rachet-action pop-up to keep your mixer at the perfect working angle. It's also available in a 10U over 12U version: the **GRC-10x12 PU**. The **GRC-10x8 PU** has a 10U top rack and an 8U lower rack. The **GRC-10X8** also has a 10U top rack and an 8U lower rack, plus the top is slanted for easy use with mixers.

ONLY $20/mo.

GATOR Cases

WATERPROOF

GU-1309-06-WPDF

A Waterproof Vault for Your Gear

Made from Gator's ultra-tough NK-7 resin and packed with customizable puzzle foam, the **GU-1309-06-WPDF** will keep your gear well protected from bumps, jolts, and the elements. Gator designs their waterproof cases to pass the IP 67 certification for water- and dust-proof operations, as well as the Mil-STD-8107 immersion test. That means no matter how sensitive your gear is, or how savage the environment is, you can trust your gear to Gator's waterproof cases.

GU130906WPDF 13" x 9" x 6" Waterproof Case ...List ~~$129.99~~ **$79.99**

GXDF-1919-7-TSA

Handy Utility Case with TSA Latches

Get serious gear protection with the **GXDF-1919-7-TSA** utility case. Its interior dimensions are 19.7" x 19.7" x 7.6". The similarly designed **GXDF-1116-5-TSA** is sized 11.7" x 16.7" x 5.9".

GPA-712SM

Tough, Lightweight Rolling PA Speaker Bag

Gator's **GPA-712SM** rolling speaker bag is a durable and effective way to protect and transport your small-format 12" loudspeakers. As a sure fit for Mackie Thump TH-12A, QSC K12, and many other similarly sized models, the GPA-712SM makes transporting your PA from gig to gig painless. You'll appreciate how easy it is to access this bag's interior, thanks to its dual-zipper design. There's a structured foam cradle at the bottom to cushion your speaker, 10mm side foam absorbs any incidental bumps or shocks, and a rugged nylon exterior shrugs off most scrapes and abrasions. A set of in-line-skate-style wheels and a pull-out handle make transportation easy. Plus, the GPA-712SM also features a large accessory pocket. The **GPA-712LG** is made to fit large-format 12" speakers.

ONLY $10/mo.

GRB Series

Portable Protection for Your Rackmounted Gear

Need a grab-and-go portable rack bag? Gator's **GRB Series** rack bags feature tough yet lightweight 9mm plywood cabinets covered in quality padded 600-denier nylon. They include a set of threaded rails for mounting your rack gear. They also come with a set of strategically designed rubber feet, which allow them to stand erect for face-up operation. A side accessory pouch gives you plenty of room for cables and other essential accessories. There are 2U and 4U models available. GRB Series bags are made tough and built to last.

G-Mix B Series

Lightweight, Tough Mixer Bags

Take your small-format mixer, compact groove-production workstation, or portable drum machine wherever you need it — safely and comfortably! Gator's **G-Mix B Series** bags give you lightweight transport solutions that are as tough as they are convenient. You can also stow your cables and accessories, thanks to a handy exterior pocket. The interior is made of rugged tricot material and lined with spongy foam, so your gear stays safe. Use the comfy shoulder strap or the web handles to carry your equipment the way you want. Several sizes are available. Call your Sweetwater Sales Engineer to find out more.

G-Club Control 25

The Perfect Bag for Your DJ Controller

Gator's **G-Club Control 25** padded gig bag is the ideal size and fit for most popular DJ controllers, including Numark's NS6 and MIXDECK models. This amazing soft case gives you the lightweight convenience of a gig bag, with the heavy-duty padding and protection you'd expect from a hard case. It's made of extremely rugged nylon and thick protective padding. A large external accessory pocket gives you plenty of storage for cables and other peripherals. As do Gator's G-Club CDMX bags, the G-Club Control 25 features a bright orange interior for added visibility in dark clubs or rooms.
